LEGISLATIVE COUNSEL'S DIGEST

SB 780, as introduced, Kelley. Security services.

(1) Existing law provides for the existence of the Bureau of Security and Investigative Services within the Department of Consumer Affairs, under the supervision and control of the Director of Consumer Affairs. The director is charged with administering the provisions governing locksmiths, reposseors, private investigators, private patrol operators, alarm company operators, and alarm agents. The provisions set fees for various services, including license applications, renewals, branch office registrations, initial registration, and fingerprinting.

This bill would instead provide that as of July 1, 1998, these provisions establish the maximum fees that may be charged for these services.

(2) Existing law provides for the existence of the Private Security Services Fund and the Private Investigator Fund in the State Treasury. All revenues generated by provisions governing locksmiths, reposseors, private patrol operators,

and alarm company operators and alarm agents are paid into the Private Security Services. All revenues generated by provisions governing private investigators are paid into the Private Investigator Fund.

This bill would transfer all revenue and encumbrances in these funds as of June 30, 1998, to the Private Security and Investigative Services Fund. As of July 1, 1998, the Bureau of Security and Investigative Services would be required to report each month to the Controller the amount and source of all revenue received, and to pay the entire amount into the Private Security and Investigative Services Fund.

(3) Existing law provides that a license as a private investigator, private patrol operator, alarm company operator, alarm agent, branch office certificate, pocket card, and all registrations issued under the Private Security Services Act, must be placed on a cyclical renewal, expiring 2 years from the date of issuance or assigned renewal date, according to a specified manner of establishing renewal groups.

This bill would repeal the provisions establishing renewal groups, and would provide that for a private investigator, security guard, private patrol operator, alarm company operator, or alarm agent issued a license who is also issued or renews a firearms qualification card, the license or registration must be placed on a renewal cycle so that the license or registration expires on the same date as the firearms qualification card.

(4) The Private Security Services Act and the Alarm Company Act provide for the issuance of pocket cards to persons licensed or registered under the acts. Under existing law, the pocket cards are issued as evidence of the licensure or registration of the holder of the card.

This bill would require the pocket cards to be made of a durable material, and would permit the bureau to charge a fee sufficient to reimburse costs of furnishing the pocket card. The bill would also require every person to display a valid pocket card while engaged in any activity for which registration or licensure is required, and would permit the pocket card to serve as a firearms qualification card if so indicated on the face of the card. Because a violation of the provisions governing private patrol operators, alarm

company operators, and alarm agents is a misdemeanor, this bill would impose a state-mandated local program by expanding the scope of an existing crime.

The bill would also make clarifying, related and conforming changes.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

*The people of the State of California do enact as follows:*
